

CALCULATION OF THE HIRSCH INDEX BASED ON THE WEB OF SCIENCE

1. Go to the database page, log in, click on the "RESEARCHERS" tab:

The screenshot shows the Web of Science interface. At the top, there is a navigation bar with the Clarivate logo, the text "Web of Science™", a search bar, and the user's name "Marek Halkiewicz". Below the navigation bar, there are two tabs: "DOCUMENTS" and "RESEARCHERS". The "RESEARCHERS" tab is selected and highlighted with a red arrow. Below the tabs, there is a search area with a "Topic" dropdown menu and a search input field containing the text "Example: oil spill* mediterranean". There are also buttons for "+ Add row", "+ Add date range", "Advanced search", "x Clear", and "Search". Below the search area, there are two panels: "Recent searches" and "Latest alerts". The "Recent searches" panel shows a search for "Wiecek, Sabina (Author)" with 54 results. The "Latest alerts" panel shows that the user has not subscribed to any alerts.

2. Enter the author's surname in the „Last name” field and the first letter of the first name in the „First name” and middle initials(s) field. Replace Polish diacritics with asterisk ("*" on the numeric keypad). Then click on the "SEARCH" button.

The screenshot shows the Web of Science interface with the "RESEARCHERS" tab selected. The search form is filled out with the following information: "Name Search" dropdown menu, "Last Name*" field containing "WIECEK", and "First Name and Middle Initial(s)" field containing "S". There is a "+ Add name variant" button and "x Clear" and "Search" buttons. Below the search form, there are two panels: "Recent searches" and "Latest alerts". The "Recent searches" panel shows a search for "Wiecek, Sabina (Author)" with 54 results. The "Latest alerts" panel shows that the user has not subscribed to any alerts.

3. A list of profiles responding to our request is displayed. Some people find only their own profile on the page displayed. However, there are many occasions when the work of an author you are looking for is found in more than one profile. It is then necessary to analyse the content of these profiles, which may contain works from the requested oeuvre. In the case of Sabina Więcek, MD, PhD, these are both profiles.

1 Are children with gallstone disease more overweight? Results of a matched case-control analysis

Krawczyk, M; Kulaga, Z; Socha, P

Oct 2023 | Sep 2023 (Early Access) | CLINICS AND RESEARCH IN HEPATOLOGY AND GASTROENTEROLOGY 47 (8)

Enriched Cited References

Introduction: Gallstone disease (GD) is increasingly common among children, possibly caused by an unhealthy food environment and the associated unhealthy lifestyle. In this study, we investigate the association between body weight and gallstone risk in a cohort of prospectively recruited children with GD. Methods: We analysed 188 children with gallstones (50.0% girls, median age 9.8 years) and 3 ... Show more

8. After analysing more profiles (in the case of Sabina Więcek, MD, PhD, we are analysing one more profile), click on the "Marked List" icon:

The screenshot shows the Web of Science search results page for Sabina Więcek. The interface includes a top navigation bar with the Clarivate logo, language settings (English), and a Products menu. The main content area displays 54 results from the Web of Science Core Collection. A sidebar on the left contains a 'MENU' section with icons for Home, Search, Alerts, and Marked Lists. A red arrow points to the 'Marked Lists' icon. Below the search results, there are buttons for 'Add To Marked List' and 'Export'. The results list includes two entries: 'Lactase activity in children with inflammatory bowel disease' and 'Is determination of antibodies against tissue transglutaminase sufficient to diagnose celiac disease?'. A '24' badge with a question mark is visible in the bottom right corner.

9. On the next page, click on the "Documents" link:

The screenshot shows the 'Marked List' page in Web of Science. The page title is 'Marked List' and it shows '58 Unfiled Records'. A table lists the types of records and their counts. A red arrow points to the 'Documents' link in the table. The footer contains the Clarivate logo and various links including 'Data Correction', 'Copyright Notice', and 'Ustawienia plików cookie'.

Type	Count
Documents	58
Chem Structures: Reactions	0
Chem Structures: Compounds	0

10. Click on the "Citation Report" button:

The screenshot shows the 'Marked List' page in Web of Science. At the top, there are 58 results in the Web of Science Core Collection. Below this, there are two buttons: 'Analyze Results' and 'Citation Report'. A red arrow points to the 'Citation Report' button. The page also features a 'Refine results' section on the left with a search box and various filters like 'Review Article', 'Early Access', 'Open Access', and 'Enriched Cited References'. The main content area displays a list of articles, with the first one being 'Disorders of Copper Metabolism in Children-A Problem too Rarely Recognized' by Wiecek, S and Paprocka, J, published in Jan 2024 in METABOLITES, with 14 citations and 50 references. The second article is 'SERUM BILE ACIDS ARE ASSOCIATED WITH NATIVE LIVER SURVIVAL IN PATIENTS WITH ALAGILLE SYNDROME: RESULTS FROM THE GALA STUDY GROUP' by Perez, CFM; Vandriel, SM; et al., published in the Meeting of the American-Association-for-the-Study-of-Liver-Diseases (AASLD), with 0 citations and 0 references.

11. The database displays the number of works cited, the number of citations and the Hirsch Index:

The screenshot shows the 'Citation Report' page for the author Wiecek, Sabina. The page displays several key metrics: 58 Publications (Total), 288 Citing Articles (Total), 281 Citing Articles Without self-citations, 294 Times Cited (Total), 286 Times Cited Without self-citations, and an H-Index of 10. The average per item is 5.07. A red arrow points to the 'Publications' box, another red arrow points to the 'Times Cited' box, and a third red arrow points to the 'H-Index' box. Below these metrics is a chart titled 'Times Cited and Publications Over Time' which shows a bar chart for publications and a line graph for times cited over the years. The chart shows a significant increase in both metrics in the most recent years shown.
